

# GasLab Plus Ammonia, NH<sub>3</sub> Hand-held Gas Detector

- Audible alarm and LCD Back-light
- EC Technology
- Large Display for easy reading of: NH<sub>3</sub>, Temp, RH

The GasLab Plus ESCM-506 is a Ammonia (NH<sub>3</sub>) Hand-held Gas Detector designed to measure azane gas concentrations in a variety of industries and applications.

With long-term data storage, the user can access and measure gas concentration by data displayed and audible alarms.

The GasLab Plus ESCM-506 has an audible alarm, LCD Backlight, and Data Logging capabilities. Best of all, the GasLab Plus ESCM-506 is easy to use, and the alarm is ready to protect your customers or employees.

## Applications:

- Poultry
- Safety
- Agriculture

Part no. ESCM-506

## Specifications:

- Measurement Range:
  - NH<sub>3</sub> - 0~100ppm
- Accuracy:
  - ±10%
- Display Resolution:
  - 1ppm
- Temperature:
  - 0-50°C
- Operating Conditions:
  - 0~40°C (32~104°F), 0~95% RH, non-condensing, with lithium-ion batteries
- Power Supply:
  - Rechargeable Li-ion batteries

**Air Quality Sensors**

Gas Detectors for CO - CO<sub>2</sub> - VOC - O<sub>2</sub>
